

ALUMNI STORIES

Joshua Streete

Senior Supervisor (Community Care)

Joshua Streete was a student at Worthing College between 2018 and 2020. Here he tells us a bit about what he is doing now, his journey to become a Senior Supervisor (Community Care) and his time at Worthing College.

What are you doing now?

I am currently working as a Senior Supervisor at Independent Lives Care Service, as well as completing a Level 3 apprenticeship in Health and Social Care. I spend most of my time bouncing around the community doing the care calls as well as the paperwork side. I do supervisions with carers, making sure that they are doing ok, helping them with any sort of matter, work related or not. I do 'on call', so up between 6am to midnight fielding any issues, sorting out rotas when going off sick and other issues.

I left Worthing College in May 2020. At this point through college, I was a part-time support worker. As soon as I told Independent Lives that I could work full time they promoted me to Senior Carer.

What is the most exciting thing about your work?

It's seeing first-hand the impact that I and my colleagues have on our clients to have a good care experience.

Which local schools did you go to?

I went to St Andrew's High School for Boys. I enjoyed my time there, had all sorts of sports, music and tech opportunities. From performing at multiple concerts and churches, to playing for the football, basketball and rugby team at some point throughout the years, to doing the sound and light for assemblies, concerts and school plays.

What subjects did you study at Worthing?

I studied A Level Politics, CAMTEC Business Extended Certificate Level 3 and RSL Music Extended Certificate Level 3. I studied all of these subjects between 2018 and 2020. I enjoyed every single subject but my favourite was music, partly due to the students and teachers but mostly because I could perform and I've always enjoyed that.

What was your best experience about college?

My best experience from college would be every single performance that I did. I loved every minute of it and my colleagues are all very talented, so this made the experience even better. Working as a team during rehearsals all turned out well for the performances, it was a lot of fun.

What's the one piece of advice you would give to your 16-year-old self?

My advice to my 16-year-old self would be take Level 3 Health and Social Care, you won't regret it.

“My quote about my time at Worthing College is the St Andrew's motto, “Nihil Sine Labore” (nothing without work).”
