

Phoebe Standing

“I studied A Levels at Worthing College in English Language, Art and Performing Arts as well as NVQ Spanish and The Dance Academy. I was recognised as Teachers Dancer at the sports awards and without the dedication of the team I wouldn't have taken that lesson forward into the profession I'm in.

Having already fast tracked A level Dance before coming to Worthing College I still wanted to develop my skills in that area so I studied Performing Arts. The faculty were amazing! One of the teachers gave me Shakespeare's Entire Works. The faculty set me up to further my education

at Dance/ Drama School. The College is a platform for students to further their education and I'm very thankful for everything.

“without the dedication of the team I wouldn't have taken that lesson forward into the profession I'm in.”

I graduated from Dance/ Drama school and was lucky enough to work with the Australian Shakespeare company as a fresh graduate, understudying

roles and jumping in last minute to cover people who were either sick or injured.”

Worthing College's Performing Arts department gave me the tools to do that in a professional job and then furthering the skills at higher education. I am now due to move to Paris for the 25th anniversary of Disneyland and perform there as a dancer for 8 weeks.
